Subject: Mental Health Event

Sent on behalf of Steve Trenchard

Dear Colleagues,

The Shropshire, Telford and Wrekin system partnership of health and care is in the process of developing integrated plans for the next 5 years, in response to the NHS Long Term Plan. A critical part of this will be to ensure that there is a clear mental health strategy that supports the ongoing implementation of the 5 Year Forward View as well as making the necessary plans for the vision set out in the long term plan.

We like to hear the views of local people about how they would improve mental health services in the Shropshire, Telford and Wrekin area.

We are inviting people to get involved in developing a future vision for and all age mental health and wellbeing strategy.

In addition to local engagement events with people in services, families, and colleagues from across health and care, we are holding an event on Wednesday 3rd April (diary invite to follow) at The Trinity Centre, Church Road, Meole Brace, Shrewsbury, SY3 9HF. The purpose is to:

- Share information with you about the current position on mental health services.
- Provide a space to hear your ambition for mental health and wellbeing services.
- To explore with you, your ideas about the best mental health services for Shropshire, Telford and Wrekin.
- To capture these views and incorporate into a future strategy.

Arrival time will be 9.30am for tea/coffee/biscuits with a start time of 10am. The session will end at approximately 3pm. Please note that as lunch will not be provided, you will be required to bring your own with you.

For catering purposes, please let me know your definite attendance.

Thank you,

Cara Darrall
